- Open Source

CAREER OBJECTIVE

An ambitious junior Flutter developer passionate about building high-quality cross-platform mobile applications for Android and iOS. Committed to continuous learning with a strong interest in mobile computing and software research. Seeking opportunities to collaborate with experienced teams and grow into a full-stack Android & iOS developer.

PROJECTS

MemoryMiles — Flutter Travel Diary App

github.com/tamiie56/memory_miles_flutter

- Cross-platform Flutter Android travel diary for capturing journey memories.
- Built with Flutter & Dart for smooth, native-like performance on Android.

MangaBD — Flutter Manga Browser App

github.com/tamiie56/mangabd

- A manga browsing app built for Bangladeshi readers using Flutter & Dart.
- Browse, search, and read manga with a clean and smooth mobile experience via REST API.

InfiniNotes — Google Keep-like Notes App

github.com/tamiie56/infininotes

- A Google Keep-like notes app built with Flutter (frontend) and Node.js (backend).
- Create, organize, and manage notes with a custom REST API.

Note Application — Java Console App

github.com/tamiie56/Note-Application

- A console-based note-taking application built with Java and JavaFX FXML.
- Supports creating, editing and managing personal notes via console interface.

Personal Portfolio Website

tamiie56.github.io/portfolio

- Responsive portfolio website hosted on GitHub Pages.
- Built with HTML, CSS & JavaScript — dark/light theme, mobile-first design.
